### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Rejections - 35 USC § 112***

Claims 19-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The invention is not enabled for the claimed method. Applicant argues that one of ordinary skill in the art would know how to administer the claimed invention, but that is not the issue at hand. Alzheimer's disease, senile dementia and Parkinson's disease are all diseases for which there is no known cure. Thus, the level of enablement to treat (alleviate)/cure (protect against) them is quite high. Applicant's claims are drawn to a method which is very unbelievable on its face. This is due to the fact that there is no cure for these conditions. Thus, without conclusive evidence to show that these conditions have been cured, the invention is not enabled by the instant specification.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
